Granite Mountain Hotshots Memorial Service

Date: July 9, 2013

Time: 0500 Hours

Major Hazard and Risks:

- **Dehydration, Heat Related Illnesses, Exhaustion & Weather**
- **Emotional Distress**
- **Large Crowds**

Narrative:

- Expect to be on your feet all day. Drink plenty of fluids—especially if your assignment is outside. Use sunblock & seek relief @ one of the ARC Relief stations to mitigate dehydration/exhaustion issues. Stay heads up for severe Wx. If a T-storms appears move towards shelter or your vehicle. Do not stand under trees.
- This tragic event has affected everyone. It's ok to cry or express your sorrow in some other way. Seek out someone who with whom you can share your feelings. Don't keep them bottled up. Peer support is available on site and CISD is also available to all. Contact your supervisor or safety for additional information.
- HUGE CAPCITY CROWDS are anticipated inside & outside the Center. Arrive early. Follow directions to park & to your assigned position promptly. Maverick operations will not be tolerated. We are here to honor the fallen and support their families and co-workers in their time of need. So we require everyone's cooperation and A-game today to make this event a suitable tribute to sacrifice.

INCIDENT EMERGENCY PLAN (IEP)

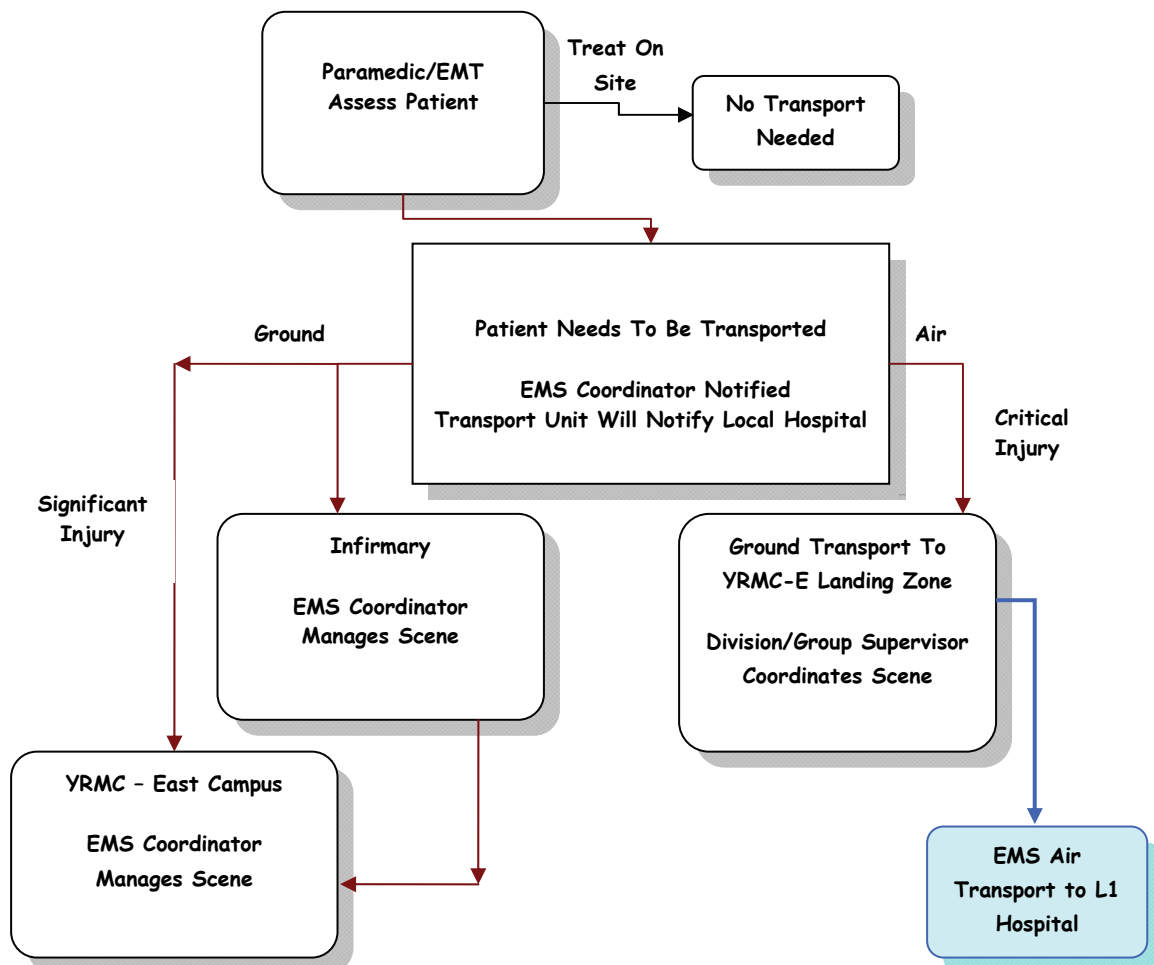

Coordinate and document all patient transportation destinations. The goal of this Incident Emergency Plan (IEP) is to provide the guidelines necessary to locate, treat, and transport medical patients.

EMS Response Plan

- ❑ Ensure proper BSI and scene safety is maintained.
- ❑ Identify the incident/patient location (ie. Red Cross Tent, Interior, Exterior, or Mezzanine).
- ❑ Communicate the issue and location with your EMS Coordinator.
- ❑ Communicate the need for additional resources (ie. Law Enforcement, Hazardous Materials, Fire Suppression).
- ❑ Communicate with your EMS Coordinator to determine transport method and location.
